**SUPPLEMENTAL DECLARATION OF DAMON NEAGLE UNDER 37 C.F.R. 1.131**

1. On April 30, 2003, I received authorization from Motorola, Inc., my client, to proceed with a U.S. utility patent application for the invention disclosed and claimed in the above-referenced application.
2. Within one week of April 30, 2003, I reviewed the invention disclosure (attached as Exhibit B to the Supplemental Declaration of Roger Jellicoe).
3. Due to my workload of unrelated cases at that time, I calendared time to begin work on this application in late May, 2003.
4. On May 20, 2003, I contacted the inventor, Mr. Jellicoe, to schedule a teleconference to discuss the invention. We conducted the teleconference approximately one week later.
5. On May 26, 2003, I sent instructions to an illustrator for formal patent drawings.
6. On or about June 16, 2003, I received the initial draft of the formal drawings from the illustrator.
7. During the period from June 18, 2003 to July 14, 2003, I worked regularly on an initial draft of the specification and claims for the application, and added reference numerals to the drawings.

8. On July 17, 2003, I forwarded instructions to the illustrator for revisions and corrections to the formal drawings.
9. On or about August 7, 2003, I received revised formal drawings from the illustrator.
10. From August 11, 2003 to August 19, 2003, I regularly worked on revisions to the application and drawings.
11. On August 21, 2003, forwarded instructions to the illustrator for additional revisions and corrections to the drawings.
12. On August 26, 2003, I received finalized formal drawings from the illustrator.
13. On August 28, 2003, I forwarded a finalized application for inventor review and approval and a Declaration for inventor signature.
14. On September 11, 2003, I received the signed Declaration from the inventor and filed the application in the U.S. Patent & Trademark Office on the following day, September 12, 2003.
15. From April 30, 2003 to August 30, 2003, I prepared and filed 29 U.S. patent applications, including 26 U.S. design patent applications and 3 U.S. utility patent applications (in addition to the above-referenced application). All of these applications were either assigned to me prior to the above-referenced application, or were subject to bar dates prior to September 12, 2003. At least 17 of the U.S. design patent applications were subject to bar dates on July 31, 2003.
16. During the period from May 23, 2003 to September 12, 2003, I was working as a solo practitioner and was supported by one part-time secretary.

*I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code.*
